Draft Outline for Bristol Bay Watershed Assessment meetings.docx
Outline 4-13-11.docx

I talked with Rick and Michael. It looks like that attached agenda will be the primary topic. I am sending it to Rick and Jeff separately. They were relieved at the progress made last week and this week. The team members have all committed to having a synopsis similar to Dan's to me by Friday. I will edit to the extent necessary to match them all up then send the document out for internal review.

Subject: May 16?

Hi Jeff,

Another reason came up to move the meeting back one week. Rick will be in Alaska the week of May 16. He asked that we move the meeting to that week so as to preserve travel funds. It has other benefits - leafout will be mostly complete so everything will be freshly green and morels will start to pop up around the end of the week. Not to mention that this is one of the few times to can come to Alaska when the trees are green but there are almost not mosquitos around.

I figure that if Rick is not worried about pushing things back another week, then neither will I.

What do you think?

Phil
